

A QUICK, EASY PROCESS

Our experienced fabricators make the whole process of replacing your windows and doors fast and easy with minimum disturbance to your daily life.

- Heat Loss
- Water penetration leaking onto window ledges

- Constant repainting
- Unsightly roller frames

- Old window is removed

- New aluminium window is inserted

- Modern, fresh appearance that will last for years to come

BEFORE

AFTER

BENEFITS

Replacing your old windows will increase the value of your home.

Economical

- An affordable, flexible system that is sympathetic to the original style of your home.

Save on energy bills

- Double Glazing will improve insulation performance leading to lower heating and cooling costs.

Better Performance

- Laminates and double glazing reduce outside noise.
- Tinted and double glazed glass reduces sun-fading of your carpet and furniture.
- Easy to maintain, healthier home.
- Increased comfort with drafts significantly reduced.
- Reduces condensation.
- An ideal solution for windows that are broken or jam easily.

NULOOK QUALITY ASSURANCE

Standards

Nulook Windows and Doors are tested in an Internationally Accredited New Zealand laboratory, using an independent testing engineer and comply with the New Zealand Standards – NZS4211:1985 Specification for Performance of Windows and NZS3504:1979 Specification for Aluminium Windows.

Durability

All Nulook products comply with the 15 year durability requirement of the Building Act 1991 B2.

Product Performance

Nulook products are tested in accordance with New Zealand industry standards.

Care and Maintenance

We recommend washing your aluminium joinery every six months with a mild detergent in warm water to remove accumulated dirt, grime and airborne salt deposits. In areas where pollutants are more prevalent such as beach houses and geothermal or industrial areas, cleaning more regularly is recommended.
